CRC Program Objective

- ▶ "To deliver significant economic, environmental and social benefits to Australia by supporting end-user driven research partnerships between publicly funded researchers and end-users to address clearly articulated, major challenges that require medium to long term collaborative efforts."

The GFC Impact on Research Initiatives

- ▶ “We found it was much better last year (2011) than in 2010 when the impact of the GFC was still flowing through, but we have seen a change in [funding] mix. So what’s happening is the larger corporations are looking more at universities to source new innovations and technologies than in the past”

David Henderson, Managing Director, UniQuest
Australian Financial Review, 2 April 2012

GFC Impact

- ▶ Strong \$AUD
- ▶ Improve competitiveness and productivity of industry

“At the core of productivity and competitiveness is innovation and the lifeblood of innovation is research and development”

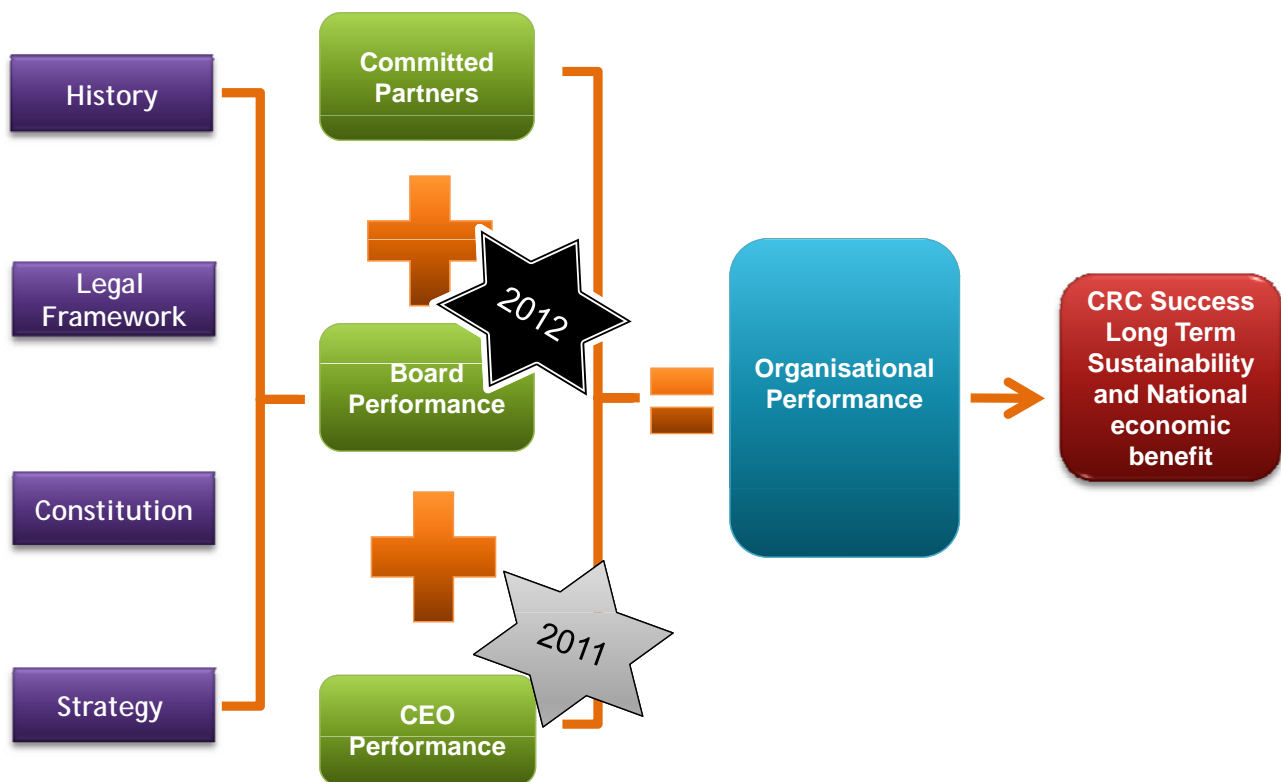

Ian Thomas, President Boeing Australia
Australian Financial Review, 12 April 2012

Current CRC Program

- ▶ 44 CRCs
 - 37 incorporated entities
- ▶ 3 years to 9.5 years
- ▶ \$1,155.70 billion
 - 8
 -

\$1,155.70

CRC – Organisational Success

Good Governance – Good Performance

- ▶ Better governed firms outperform poorer governed firms in a number of performance areas

Brown, Rebecca and Gorgens, Tue. (2009)
Corporate governance and financial performance in an Australian context

The Benefit of Good Governance

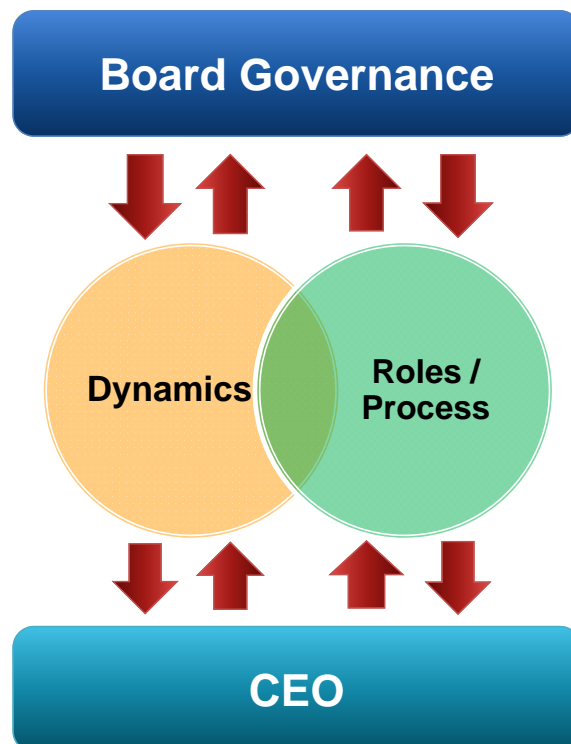

- ▶ Second only to financial reporting, **board structure and board responsibilities** are considered as high in importance for stakeholders
- ▶ Companies with **good governance practices** clearly **outperform** those without
- ▶ Provide assurance to **regulators and financial institutions**
- ▶ **Employee satisfaction, transparency, accountability and organisational culture** are enhanced

CRC Guide to Good Governance

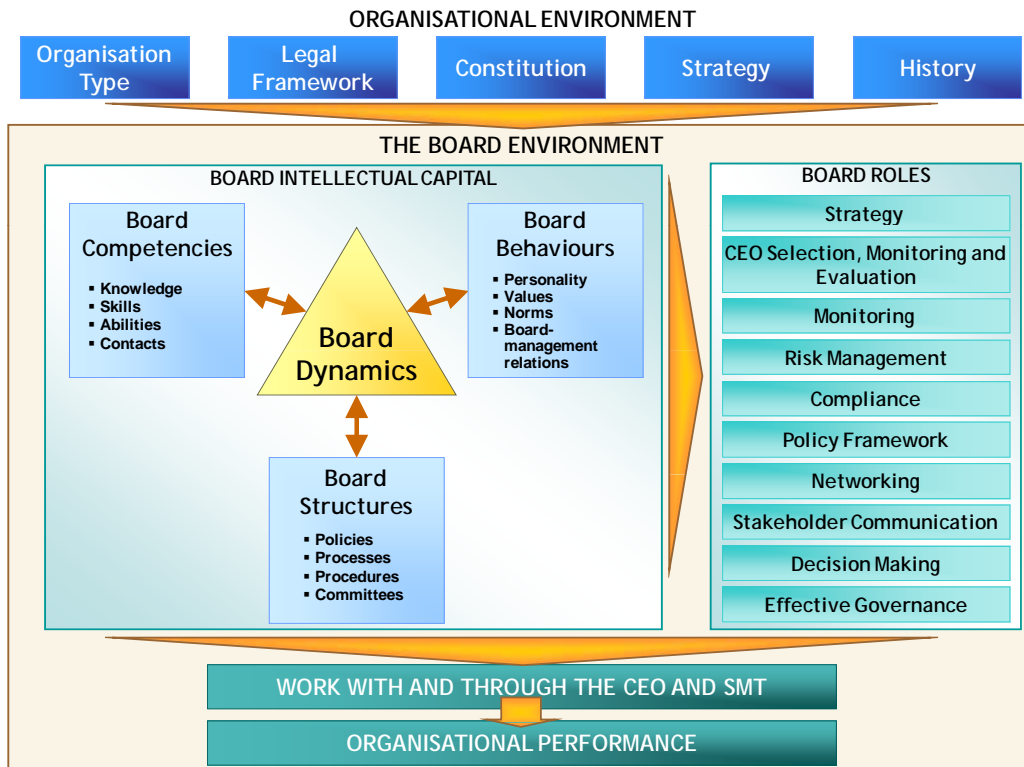

- ▶ Aligned to 8 ASX Corporate Governance Council Principles
- ▶ Strong encouragement to follow all Principles
- ▶ Principle 2: Structure of the CRC Board to add value
 - Are performance evaluations of the board as a whole undertaken regularly?

Governance and Management

There is considerable confusion in many organisations as to what is governance and what is management

Governance versus Management

GOVERNANCE ROLES

- Govern the **organisation** and act on behalf of the owners in a 'trustee' or 'stewardship' role and are held accountable for the success or failure of the organisation
- Work "**on**" the organisation (as directors) with their hands firmly 'on' the tiller, not 'in' the engine room (**NIFO**)
- Set the strategic **direction** and maintain **control** of the organisation as a whole
- Focus on the **why** and the **what**

Directors direct

MANAGEMENT ROLES

- Deal **with** the complexity and details of the day-to-day business **operations** and individual operational functions
- Work "**in**" the organisation (as managers represented by the CEO)
- Act within the framework of the strategic direction and policies established by the board
- Focus on the **how**, **when** and **where**

Managers manage

Board Role: Tips and Hints

1.1 The board discuss and agree the specific roles of the board, directors and management.

1.2 The roles of the board, directors and management be documented in a Corporate Governance Charter.

1.2 There are clear delegations of authority from the board to the CEO.

Delegation of Authority Policy

- (1) The business of a company is to be managed by or under the direction of the directors.
- (2) The directors may exercise all the powers of the company except any powers that this Act or the company's constitution (if any) requires the company to exercise in general meeting.

Corporations Act, s. 198A

- ▶ Physically impossible for the board to make decisions on everything for the company
- ▶ Provides clear and agreed expectations of the various functions within the governance system, along with the necessary authorities to carry out these functions
- ▶ Allows the board to exert sufficient control over delegates

Board Role: Tips and Hints

1.3 The board review its current delegations of authority policy to the CEO to ensure that it is relevant to achieving the current strategic direction.

The Strategic CEO's Report

1. **Current Significant Issues**

- An overview of any significant current issues facing the organisation. These may continue on from the previous board meeting or be a new issue.

2. **Matters for Approval**

- Any matters for which the CEO is seeking the board's approval and which are not covered elsewhere in the agenda.

3. **Update on Strategic Plan Implementation**

- Updates on the strategic plan are covered in section 4 of the report. Major reviews on progress on the corporate plan should be covered every three or so months.

4. **Major Key Performance Indicators**

- The strategic plan should have had a number of both financial and non-financial KPIs. In this section these KPIs will be reported, together with their target, possibly using a "traffic light" indicator to indicate whether performance is on or better than target (green); a little less than target, but not major concern (amber) or below target and of some concern (red). A brief description of the reason and actions being taken for amber and red items should also be included.

* **Note:** this format assumes that financial matters are dealt elsewhere in the agenda.

The Strategic CEO's Report (cont'd)

5. **Risk and Compliance Update**

- Depending on what actions management have taken between board meetings this section may have two components:

5.1 Update on Risk and Compliance Management

- A brief update on any significant outcomes from the ongoing work on risk and compliance.

5.2 Risk and Compliance Incidents

- A brief outline of any incident or activity which has resulted in the occurrence of a risk or compliance event which is outside the agreed risk and compliance standards.

6. **Matters for noting**

- Any other issues which the CEO wishes to bring to the board's attention, but which are unlikely to require discussion.

CEO and Senior Management Oversight: Tips and Hints

3.3 The board and CEO to agree on the content and format of the CEO's report.

3.4 At the end of each board meeting all directors to participate in meeting evaluation including feedback to management in the formant and content of reports.

Risk Management Standard

Adapted from: AS/NZS ISO 31000:2009

Embed Risk Into Governance

The board must incorporate risk management into its regular operation

Link Between Strategy and Risk Management

- Established by management and reviewed/approved by the board
- To be further considered as part of risk management process
- To be driven out of, and identified, through the risk management process
- Internal audit function consideration of risks and review of controls identified

Basic Risk Considerations

- ☐ Does the organisation have an **overall risk framework** that addresses the risks it faces, how it views those risks and how it manages them?
- ☐ Does the board have assurance that the audit committee is satisfied with the organisation's **risk assessment and risk management processes**?
 - ☐ Is there an *actual* process?
- ☐ Is the board **updated** on risks regularly?
- ☐ Has management engaged in **scenario planning (or stress testing)** to assist in identifying key risks and vulnerabilities and the plans to address those risks?
- ☐ Has the board established its **risk tolerance/appetite** on how much risk the organisation is willing to accept?
- ☐ Has the board determined who has **responsibility and authority to take risk on** its behalf?
- ☐ What is the organisation's **capability to manage risk** on an integrated and ongoing basis?

Risk: Tips and Hints

4.1 The board and management discuss and agree upon the board's role in risk management including the approval of the organisation's risk management strategy and setting the level of acceptable risk (Risk Appetite) to the organisation.

Risk: Tips and Hints

4.2 Include risk oversight (including compliance with legislation) as a regular board meeting agenda item with reporting on an exception basis with an annual reassessment of risks (including compliance) scheduled into the board calendar.

Risk: Tips and Hints

4.3 The board and management to review a list of all current risks facing the organisation and ensure appropriate mitigation strategies are in place.

4.4 The board and management to agree upon a reporting framework for keeping the board advised of those risks that will be reported to the board.

Performance Measures

- ▶ Hierarchy of information
 - Is the data strategic, operational, or both
- ▶ Performance measures should include both leading and lagging indicators
 - Financial measures tend to be lagging indicators, measuring current and past performance
 - Leading indicators (e.g. client satisfaction) are helpful in predicting future results and allow time for correction
- ▶ Both financial and non-financial measures should:
 - Be linked to strategy
 - Include a combination of input, process, output and outcome measures

Monitoring: Tips and Hints

5.1 The board and management discuss and agree on a balance of strategic and financial indicators for the ongoing assessment of organisational performance.

5.2 The board and management agree a balanced mix of financial and non-financial measures for monitoring organisational performance.

Networking

External

- ▶ Developing networks (contacts) outside the organisation with, for example, government departments, health sector and indigenous community can help promote the reputation of the organisation and gain access to resources (financial, human etc.)

Networking

Internal

- ▶ To the board
 - Get to know each other better. This assists in boardroom debate and decision making
- ▶ To the organisation
 - Understand the issues facing operational staff
 - Identify and get to know potential CEO successors

Networking and Stakeholder Communication: Tips and Hints

7.1 The board and management to discuss and agree upon the director's role in networking and representational activities including a program of activities. These activities must be aligned to the agreed strategic direction.

How Board Dynamics Affect Governance

Since no individual director alone can make a decision and all decisions have to be group decisions, board dynamics are a huge determinant of whether a board adds or destroys value.

Source: Charan, 2009

The “Right” Behaviours in the Boardroom

- ▶ Behaviours to be encouraged in the boardroom include:
 - Directors asking tough questions without management becoming defensive
 - Discussion between directors and managers is two-way
 - Dissent among directors allowed and pressures for conformity to the majority opinion acknowledged and guarded against
 - Directors not intent on point scoring by putting down other directors and/or managers
 - Directors understand when to listen and learn from each other and from management
 - Directors respect the agenda. While discussion is encouraged, everyone recognises the limits imposed by time

BOARD PAPER

Agenda Item: #

Agenda Item: [Insert Title]

Sponsor: [Insert Name and Title]

Draft Resolution [Insert exact wording of proposed board resolution that the Board is asked to pass.

The draft resolution must be clear, concise and unambiguous.]

Executive Summary:

Explain in no more than four lines what the paper is about and what it is endeavouring to achieve. The paragraph should be clear and concise and should state whether the paper is being submitted for the Board's information or is seeking the Board's approval for a contract, action, etc.

Background:

Outline in no more than twelve lines the background to what is being proposed to the Board providing the information necessary for a non-executive director to understand the proposal who does not have the background knowledge of an executive who has been managing the day-to-day affairs of a particular matter.

Summarise any previous Board consideration of the specific proposal. If it is not possible to explain the background to a proposal in the space of two paragraphs include an attachment and provide further details.

Identify any external advice/consultants/information who has been involved in the preparation of the proposal.

Recommendation:

Outline the recommendation in no more than twelve lines. Do not repeat the statements made in the sections above.

Mention the options that were considered by management and explain why the preferred option was chosen.

Also detail the outcomes that management is seeking to achieve from the proposal. If the implications of the proposal are complex include an attachment and provide further details.

Issues

Strategy Implications

Explain in no more than ten lines how this proposal is aligned to the agreed strategic and business plans.

Financial Implications

Explain in no more than twelve lines the expenditure implications of the proposal.* Once again this should take the form of an executive summary approach. If the expenditure implications are complex include an attachment and provide further details.

This section should include comments on whether the expenditure is budgeted or unbudgeted, the proposed timing of the expenditure and cash flow implications. If a detailed business case has been prepared for a proposal the major points of the case should be summarised here.

Risk Analysis

Analyse in no more than twelve lines the major risks associated with the proposal and explain how these risks will be managed. This information may be presented using the following pro forma.

Identified Risk	Risk Likelihood (H,M,L)	Impact of Risk (H,M,L)	Strategy to Manage Risk

Governance and Compliance

Outline in no more than twelve lines the governance implications of the proposal remembering that it is of considerable importance to the Board that contemporary governance standards are achieved. Therefore, the adoption of appropriate internal risk management and compliance processes will be a condition precedent to the Board considering and approving a proposal.

Outline what KPIs and/or reporting back to the board will occur during and after implementation.

Management Responsibility

Identify the manager who will have responsibility for the proposal as well as the executive who will deal with the matter on a day to day basis.

When to Form a Committee

1. Will it provide significant time benefit or overall workload reduction for the governing body if a committee is delegated a specific responsibility?
2. Will the committee provide greater rigour to governing body decision-making?
3. Will the committee make better use of the governing body's skills and experience?
4. Will the committee assist in the ongoing development of the governing body?
5. Will any benefits gained by establishing and maintaining the committee outweigh the added costs of establishing it?

Is the issue too important to be delegated to a committee?

Committees: Tips and Hints

12.1 The committee structure to be reviewed including review of Terms of Reference to ensure the committees are meeting the board's requirements. This should be scheduled in as an annual activity.

12.2 Ensure the minutes of each committee are included in the board's papers together with a verbal update, from the committee chair, as required.

Next Steps

1. Review your responses to the Healthcheck
2. Discuss any areas of concern with your chair
3. Consider a whole of board approach to reviewing how the board does its job
4. The whole board to discuss findings of review to identify how the board could do their role differently to increase their value to your CRC
