Health Research

Take the guesswork out of evaluation

We have been hard at work building a robust tool called **Resilas** to help researchers and policymakers better demonstrate the results of their work.

Register your interest if you would like to find out more about our exciting new tool.

I've been waiting for a tool like Resilas for years and only wish I could get to use it now.

Resilas is arriving in 2017

It doesn't matter if you are an experienced researcher or not, **Resilas** is the tool that you've been looking for. The Lowitja Institute is building **Resilas** to create better health results for Aboriginal and Torres Strait Islander communities.

Our intuitive drag-and-drop interface will help you prototype your proposed research or program as well as ensuring you can report on its progress using our **culturally** and **methodologically** validated program logic interface.

With Resilas, you will be better able to design a program that demonstrates real results that matter to communities.

COLLABORATE WITH YOUR TEAM

Get to work with your team members right away.

EASY AND QUICK SHARING

Share your work at any given time while working on your projects.

REPLICATE YOUR WORK FOR BETTER RESULTS

Resilas builds evaluation into projects from start to finish.

LOWITJA INSIGHTS

Get to access thousands of resources that come along with your licence.

TEST ON ANY DEVICE

Resilas is accessible on any device making it perfect for fieldwork.

EXPORT OPTIONS

You can export your evaluation in multiple formats to use them right away.
