Collaborate Innovate 2024 Sponsorship

Cooperative Research Australia, the national member led organisation for industry-research collaboration, is pleased to offer you the opportunity to partner in the leading event connecting those involved in industry-research collaboration and commercialisation, including Cooperative Research Centres (CRCs), CRC-Projects (CRC-Ps), post-CRC entities, Trailblazers, Rural Research and Development Corporations, Growth Centres, ARC Industrial Transformation Research Hubs, Drought Resilience Adoption and Innovation Hubs and research institutions as well as other boundary spanning organisations, government, media and associated businesses, and alumni.

Dear Partners and Collaborators,

I am delighted to extend an invitation to you to join us for Cooperative Research Australia's annual conference 'Collaborate Innovate' in 2024. This year's conference will take place on the 22nd–24th of July at the Sofitel, Brisbane. The CRA team look forward to the opportunity to bring the industry–research community together to celebrate the role you play in driving Australia's prosperity and exploring the critical issues in cooperative research and industrial transformation.

Our sponsorship prospectus offers a range of engagement options, designed to accommodate a variety of interests and budgets. Whether you choose to champion a session, sponsor the breakfast, lunch, or dinner, showcase your business in our exhibition hall, or are interested in a bespoke collaboration, your support will play a vital role in shaping the discourse and outcomes of our collective impact.

The Collaborate Innovate program is curated to inspire and inform. Through a thought-provoking line-up of keynote addresses, panel discussions, and interactive workshops, we aim to ignite dialogue, spark innovation, and foster connections. The conference presents a perfect opportunity to network with industry research leaders, exchange insights, and build lasting partnerships that drive meaningful change.

Central to our event is the exhibition hall, a vibrant hub of innovation and collaboration. Here, partners can showcase their business, engage with delegates, and create new relationships that encourage future collaborations. Additionally, the Gala Dinner, featuring the prestigious Excellence in Innovation Awards, serves as a testament to the outstanding achievements and contributions of our community and the Early Career Researchers Competition encourages and supports new researchers in presenting their research projects with the opportunity to win \$5,000.

The CRA team are working hard to design the Collaborate Innovate program for 2024 – this year's program will be a one-of-a-kind event. The diverse group of Australian and global leaders in research and industry will stimulate discussion and drive change across industry–research collaboration in Australia.

I look forward to welcoming you at Collaborate Innovate 2024.

Jane O'Dwyer
CEO – Cooperative Research Australia

About Cooperative Research Australia

Cooperative Research Australia is the voice of industry-research collaboration and advocates for the translation of research into commercial, economic, social, and environmental outcomes that benefit all Australians. Our members are the lynchpin in the Australian innovation system and are focused on creating new products, services, industries, and value in our economy. CRA represents Cooperative Research Centres (CRCs), their spinoff/successor entities, CRC-Projects grant participants, 30 universities and research institutions, as well as other industry-research collaboration entities, associated businesses, alumni and professionals. CRA strengthens and promotes the transformative potential of collaborative, industry-led research through knowledge exchange, professional development and advocacy.

Cooperative Research Australia supports Australian innovation, connecting research organisations and industry with private and public funding, data and insights, partnerships and best practice. We guide our members as they navigate the complex needs and changing dynamics of industry-research collaboration, by sharing expert advice, experience and resources.

Our education, events and advisory services build the capability of industry and research organisations to participate in collaborative research, shape Australia's future leaders, and develop the integrity of cooperative research as a discipline. Our communication, engagement and advocacy focuses on promoting the value created by our members to government, industry and local and global communities
